- (b) no such disability shall be treated as having been incurred as a result of the relevant loss of faculty in so far as the claimant either:
  - (i) would in any case have been subject thereto as a result of congenital defect or of any injury or disease received or contracted before the relevant accident; or
  - (ii) would not have been subject thereto but for some injury or disease received or contracted after, and not directly attributable to, the relevant loss of faculty;
  - (iii) the assessment shall be made without reference to the particular circumstances of the claimant other than age, sex and physical and mental condition.
